

Pham Duc Trung

FULL-STACK WEB ENGINEER

Web engineer with 3+ years building scalable, high-quality web applications. I work primarily in TypeScript across the full stack and care about clean, maintainable code — comfortable owning features end to end, from database and infrastructure to polished UI.

EXPERIENCE

10/2024 – 05/2026

Full-Stack Web Developer · Middle — FiveTech Technology Co., Ltd

Full-stack across the product, owning features from database, caching, and infrastructure through to UI — with Li2.ai, a GTM-and Clarity-style web analytics & tag platform, as my primary focus.

- › Developed and maintained production SaaS and web applications.
- › Deployed and operated apps in production with Docker and AWS (S3, EC2).
- › Worked with large-scale production databases, focused on performance and stability.

07/2023 – 08/2024

Freelance Full-Stack Developer

01/2022 – 01/2023

Full-Stack Developer — Cong Nghe Van Thong JSC

SELECTED PROJECTS

Li2 — Web Analytics & Tag Platform li2.ai

03/2025 – 01/2026

Next.js · Go (Gin) · Supabase · PostgreSQL · Zustand · Tailwind · Zod

- › Built the tracking SDK, public integration API, and an AI tracking-script generator.
- › Engineered a cross-domain fingerprinting system to identify users across sites and domains.
- › Delivered Clarity-style session capture, GTM-style tag management, and link attribution.
- › Designed hierarchical RBAC across organizations and spaces; shipped a WordPress plugin for one-click install.
- › Built a visual flow builder and optimized redirection & event ingestion for concurrent users with a worker pool.

Business Report App — Excel-like reporting platform

08/2023 – 05/2024

NestJS · React · Ant Design · Tailwind · Cloudflare R2 · MongoDB

- › Built an Excel-like workspace — spreadsheet grids, manual entry, external data sources, and internal setup forms — for business data processing.
- › Created a reusable Ant Design component library (tables, cells, inputs) powering the grid UI.
- › Shipped a dynamic statistics module with configurable charts and tables; middleware for per-project permissions.

168 LiveChat 168livechat.com

01/2022 – 01/2023

Node.js · NestJS · Socket.IO · React · MongoDB · RabbitMQ · Docker

- › Built an embeddable real-time chat widget for customer websites.
- › Developed microservices for account plans to offload the main server.
